(b) Use of Dogs. Dogs may be used to take mountain lions during the open hunting seasons. However, dogs shall only be used to take mountain lions during open hours for the lawful taking of mountain lions.

(c) Except as provided in Section 5 of this regulation, after a mountain lion has been pursued or bayed, a properly licensed person shall promptly harvest or release the mountain lion. No person shall in any manner restrict or hinder the mountain lion’s ability to escape for the purpose of enabling a person who was not present at the time the mountain lion was bayed to arrive and take the mountain lion.

(d) Bag and Possession Limits. The bag and possession limit for any person with a proper license shall be one (1) mountain lion during any one (1) calendar year (January 1 - December 31), except as otherwise provided in this Section. The entire pelt and skull must be presented in an unfrozen condition in order to allow collection of two (2) premolar teeth to be utilized to determine the age of the mountain lion and to allow examination of the pelt to determine the sex of the mountain lion and lactation status of females. At the time of registration, the licensee shall furnish the Department with their license, the date of kill and the location of the site of kill, including hunt area, section, township and range, or UTM coordinates.

(ii) Reporting when taking a mountain lion in a designated wilderness area. A licensee taking a mountain lion in a designated wilderness area shall report their harvest by telephone or in person within seventy-two (72) hours and shall present the pelt and skull to a district game warden, district wildlife biologist or Department personnel at a Game and Fish Regional Office during business hours for registration within ten (10) days from the date of harvest or within three (3) days after returning from a designated wilderness area.
