Acknowledgements

This report was completed through a partnership with the Wyoming Game and Fish Department and the Wyoming Survey and Analysis Center at the University of Wyoming. We also thank IC Security Printers for printing and mailing. As always, we are indebted to the many sportspersons who completed a survey questionnaire and shared valuable information about their hunting experience.

Executive Summary

Each year the Wyoming Game and Fish Department surveys antelope hunters to estimate the number of animals harvested, hunter success, and hunter effort. This information helps Game and Fish manage antelope populations and plan next year's hunting seasons. The harvest statistics presented in this report were estimated based on 8,886 responses to a voluntary harvest survey sent to 22,755 license holders and extrapolated to represent the 30,565 licenses issued. We estimate that 22,218 antelope were harvested in Wyoming during the 2024 hunting season.
